DETAILED ACTION

Examiner's Reasons for Allowance

Claims 1-18, 20-23, and 25-41 are allowed over the prior art of record (see Office action, paper number 7).

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a monitoring apparatus for one or more vapor phase polycyclic aromatic hydrocarbons in a high-temperature environment of a burning cigarette comprising a positioner couple to a first optical path, wherein the positioner slidably moves a distal end of at least a first optical probe to maintain the distal end position at a desired position with respect to an area of the material of the burning cigarette undergoing combustion, in combination with the rest of the limitations of claim 1.

As to claim 23, the prior art of record, taken alone or in combination, fails to disclose or render obvious a vapor phase polycyclic aromatic hydrocarbon monitoring apparatus wherein a means for receiving emitted radiation is positionable to be co-located with a material of a cigarette undergoing combustion such that emitted radiation is collected, in combination with the rest of the limitations of claim 23.

As to claim 28, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method of monitoring at least one vapor phase polycyclic aromatic hydrocarbon using electromagnetic radiation comprising positioning a distal end of a first optical probe with respect to an area containing gaseous by-products produced by combustion of a cigarette, in combination with the rest of the limitations of claim 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
